Pelger-Huët Anomaly Test

Dr. Kenneth S. Latimer
Lanexa Veterinary & Consulting Services, LLC
P.O. Box 989
Toano, VA 23168
E-mail latimer49@gmail.com | Telephone (706) 296-5489

Laboratory Report

Owner	DVM	Patient ID	Breed	Age / DOB	Sex	Color
Stephanie Ihbe 15382 34 th St. CV N Stillwater, MN 55082	Inver Grove Heights Anim Hosp (651) 451-4404	Callaway Looking Forward "Roan" AKC # DN63459907	Australian Shepherd	08/22/2022	M	Red Tri

E-mail: stephihbe@comcast.net

Description: Five high quality, air-dried blood smears were submitted for hematologic examination. Following Diff Quik staining and microscopic examination, all granulocytes have segmented or well lobulated nuclei that are consistent with a normal phenotype. There is no evidence of Pelger-Huët anomaly.

Diagnosis: Negative for Pelger-Huët anomaly (normal granulocyte phenotype).

Comment: Hematologic changes consistent with Pelger-Huët anomaly are not observed in the stained blood smear. Please contact Dr. Latimer at latimer49@gmail.com if you have additional questions concerning this test result.

Paw Print Genetics® performed the tests listed on this dog. See the Laboratory Report for interpretation and recommendations based on these findings. The genes/diseases reported here were selected by the client. Normal results do not exclude inherited mutations not tested in these or other genes that may cause medical problems or may be passed on to offspring. These tests were developed and their performance determined by Paw Print Genetics. This laboratory has established and verified the tests' accuracy and precision. Because all tests performed are DNA-based, rare genomic variations may interfere with the performance of some tests producing false results. If you think these results are in error, please contact the laboratory immediately for further evaluation. In the event of a valid dispute of results claim, Paw Print Genetics will do its best to resolve such a claim to the customer's satisfaction. If no resolution is possible after investigation by Paw Print Genetics with the cooperation of the customer, the extent of the customer's sole remedy is a refund of the fee paid. In no event shall Paw Print Genetics be liable for indirect, consequential or incidental damages of any kind. Any claim must be asserted within 60 days of the report of the test results. Genetic counseling is available at Paw Print Genetics.
